

## Maths Week

Monday 1<sup>st</sup> December to Thursday 4<sup>th</sup> December

I would like to say a very big thank you, to everyone, for making Maths Week, our Winter Shopping Wonderland Experience, a hugely successful event. The buzz from Class R to Class 6 has been amazing. Every child and teacher has been proudly telling me about all of the debating, in depth discussions and problem solving that has been happening throughout this week, including all of the different Mathematical skills children have either consolidated or further developed. We have also had lots of very creative entries for the Christmas Piggy/Money Bank competition. I didn't believe there were so many unusual possibilities! The winners were: Ruby (R), Amelia (1), Emille (2), Harvey (4M), Grace (4L). Congratulations.

The children were so wrapped up in selling on Thursday morning, that I even managed to purchase one item from each class that belonged to the class teacher, for a fairly high sum of money of course! (Thank you Mrs Rendell for the 'notes'). As the Maths Subject Leader I have been overwhelmed by the dedication and creativity of the children and their Christmas Piggy/Money Banks and the enthusiasm and skills demonstrated in making the Christmas Gifts for our whole school Winter Shopping Wonderland Experience. Thank you once again for making this week another treasured memory.

Miss Self

Deputy Head teacher / Maths Subject Leader
